North Dakota Audiologists .....	<b>32-33</b>

Multidisciplinary clinics sponsored or supported by Special Health Services are intended to provide access to pediatric specialty care and enable families to see many different medical providers and health care professionals in one place at one time. Families that attend the clinics are provided with:

- Information, education and reassurance
- Diagnostic evaluation and/or treatment
- Coordinated, comprehensive care
- Follow-up and monitoring
- Access to specialty medical care

Please note that some of the clinics listed in this booklet are self-identified multidisciplinary clinics and may not be run in the same manner as those supported or sponsored by Special Health Services. The listing of pediatric specialists in this booklet is obtained from other specialty agencies and does not guarantee acceptance of Special Health Services enrolled clients.

# Division of Special Health Services

## Mission

The mission of the Division of Special Health Services is to promote a system of care and services that improves the health and well-being of individuals with special health care needs and their families.

Cross-cutting implementation strategies at the heart of all SHS programs include:

- Care coordination
- Collaboration
- Data-informed decisions
- Information and education

## Programs and Services

### COORDINATED SERVICES PROGRAM

Provides services and resources that support coordinated management of specific chronic health conditions.

Services include:

- **Metabolic Food** – Provides formula and low-protein modified food products for individuals with Phenylketonuria (PKU) and Maple Syrup Urine Disease (MSUD).
- **Multidisciplinary Clinics** – Services that provide access to pediatric specialty care and enable families to see many different medical providers and health care professionals in one place at one time. The seven types of clinics available through SHS include:
  - Asthma
  - Autism
  - Cleft Lip/Palate
  - Developmental Evaluation
  - Metabolic Disorders
  - Myelodysplasia
  - Neurodevelopmental Coordinated Care
- **Cardiac Care for Children** – Provides an initial examination by a participating pediatric cardiologist, routine tests for children with cardiac conditions, and linkage and referral services.
- **School Nurse Consultation** – Supports school nursing initiatives and promotes the connection between health and academic achievement by ensuring nursing care is safely and effectively delivered to schools, particularly in rural communities.

## FINANCIAL SERVICES PROGRAM

Helps families pay for medical services for eligible children, youth, and young adults who require specialty care to diagnose and treat their chronic health conditions. Services include:

- **Diagnostic Testing and Evaluation** – Provides coverage for services that promote early diagnosis of SHS-eligible medical conditions.
- **Treatment** – Provides coverage for services to children with chronic health conditions who meet medical and financial eligibility criteria.
- **Russell Silver Syndrome** – Provides coverage for growth hormone treatment and medical food.

## NEWBORN SCREENING AND FOLLOW-UP PROGRAM

The goal of this program is to identify conditions at an early age when treatment and intervention can prevent health problems, support early development, and save lives. Newborn screening consists of three simple tests:

- **Blood Spot** – Includes laboratory screening tests and follow-up services for nearly 50 genetic/metabolic conditions to identify infants that may be at risk for disorders included in the testing panel.
- **Hearing** – Screening tests using specialized equipment to identify newborn infants who are deaf or hard of hearing so appropriate intervention services can be started as soon as possible.
- **Critical Congenital Heart Disease** – Screening that checks newborns oxygen levels to help identify serious heart defects.

## CHILDREN WITH SPECIAL HEALTH CARE NEEDS SYSTEM ENHANCEMENT PROGRAM

Improves health outcomes of children with special health care needs (CSHCN) by advancing a quality, comprehensive system of care that promotes the healthy development and well-being of children and their families. Six core outcomes that describe the system of services for CSHCN include:

- Family Professional Partnership
- Medical Home
- Adequate Health Insurance
- Early and Continuous Screening and Surveillance
- Easy to Use Services and Supports
- Transition to Adult Health Care

## Programs for Children with Cardiac Conditions

### Cardiac Care for Children

Provides an initial examination by a participating pediatric cardiologist and routine tests for children with cardiac conditions. Clinic locations include Bismarck, Fargo, Grand Forks, and Minot. The program ensures comprehensive and coordinated care through linkage and referral to other services and programs, and through care coordination as needed. Health care and financial information is available to families and professionals upon request.

Any child, birth to twenty-one years of age, who lives in North Dakota, may participate in this program. Third party payers, such as private insurance and Medicaid, are billed when available.

The Cardiac Care for Children program covers an initial examination by a participating pediatric cardiologist and routine tests to support the cardiac assessment, such as:

- Chest X-Ray
- Electrocardiogram
- Echocardiogram
- Select Laboratory Tests

If more extensive diagnostic services or treatments are needed, a separate application for the Diagnostic Testing and Evaluation and/or Treatment program is recommended.

**It is preferred that children be screened by their primary care physician (PCP) before being referred. Medicaid and some insurance plans require a referral from the child's PCP.**

**Appointment Site:**

**For Appointment Call:**

**BISMARCK**

801 21<sup>st</sup> Avenue SE  
Minot, ND 58702

701-234-2568 or 800-437-4010  
ext. 2568

## **Diagnostic Testing and Evaluation**

To confirm or rule out a diagnosis, this program pays for more extensive cardiac tests in addition to the above service. An application through Special Health Services is necessary. No financial eligibility is required. Third party payers such as, private insurance and Medicaid, are billed when available. Covered tests may include:

- Diagnostic Heart Catheterization
- Ambulatory Electrocardiogram Monitoring (Holter Monitor)
- Stress Test

## **Treatment**

Payment for treatment of cardiac conditions for children is available for families who meet financial eligibility guidelines. An application through Special Health Services is necessary. Third party payers, such as private insurance and Medicaid, are billed when available. Covered services may include:

- Periodic Electronic Monitoring of Cardiac Pacemaker
- Surgery Cardiologist Office Visits
- Hospitalization
- Medication

For more information, call Special Health Services at 701-328-2436 or toll-free at 800-755-2714. You may also visit their website at <https://www.health.nd.gov/Youth/special-health-services>

## Cleft Lip and Palate Clinic

For many children with cleft lip and palate, evaluation by an experienced team of professionals is necessary for an accurate diagnosis and optimal treatment planning. Families are an essential partner to the team as they are the principle caregiver and the center of strength and support for the child. To access resources that provide guidelines for the care of children with cleft lip and palate, visit: [https://www.health.nd.gov/sites/www/files/documents/Files/HSC/SHS/Booklets/Cleft\\_Resource\\_Booklet.pdf](https://www.health.nd.gov/sites/www/files/documents/Files/HSC/SHS/Booklets/Cleft_Resource_Booklet.pdf).

### Cleft Lip and Palate Clinics

Special Health Services provides cleft lip and palate clinics in Bismarck, Fargo, Grand Forks and Minot. Cleft lip and palate clinics supported by SHS provide multidisciplinary team evaluations where families have an opportunity to see many different providers in one place at one time. Reports generated from the clinic visit include recommendations to help direct care for the coming year. All children who might benefit are eligible to attend with *no* direct cost to the family. More information can be found at: <https://www.health.nd.gov/pediatric-specialty-clinics>.

Clinics make a positive difference in children's overall care. Families will receive:

- Information, education and reassurance
- Diagnostic evaluation and treatment
- Coordinated/comprehensive care
- Follow-up and monitoring
- Access to specialty medical care

The sites and location information about cleft lip and palate are listed below. To schedule an appointment, or to receive care coordination services to help families plan for needed follow-up care, call SHS at 800-755-2714.

#### Bismarck/Mandan

Feil Orthodontics – Mandan  
1411 27<sup>th</sup> Street NW  
Mandan, ND 58554

#### Fargo

Pontoppidan Lutheran Church  
309 North 4<sup>th</sup> Street  
Fargo, ND 5810

#### Grand Forks

UND, Communication Science Disorders  
501 N Columbia Rd Stop 8040  
Grand Forks, ND 58202-8040

#### Minot

Communications Disorders Clinic  
Minot State University-Memorial Hall  
Minot, ND 58701

For a list of participating specialists, contact SHS at 800-755-2714 or visit: <https://www.health.nd.gov/easy-use-services-and-supports>.  
*Prior approval is required by ND Medicaid and private insurance companies in some circumstances for out of state surgical consult or surgical intervention.*

# Financial Coverage Program

## Treatment Services

### Eligibility

- Child must be a North Dakota resident.
- Child must be birth to age 21.
- Child must have a special health care need. For treatment services, a child is medically eligible if he or she has a condition that is included on a list of more than 100 eligible conditions treated under the SHS Financial Coverage Program.
- Family is financially eligible at 185 percent of the federal poverty level. See income guidelines chart below.

### Income Guidelines Effective 5/1/2020

Family Size	Gross/Adjusted Gross Income is no more than:
1	\$23,606
2	\$31,894
3	\$40,182
4	\$48,470
5	\$56,758
6	\$65,046
7	\$73,334

Gross income is generally used to determine financial eligibility. Adjusted gross income is used in instances of self-employment. Financial eligibility is determined annually.

If family income is above the federal poverty level, a child may still be eligible with a monthly cost/share. This means that the family must spend a designated amount for out-of-pocket medical expenses for the family unit before SHS will pay for care.

### Important Facts/Tips

- To apply, contact the state Special Health Services office.
- If both financial and medical eligibility is present and treatment is planned, the application is approved for the specific medical condition. Effective date for services may be 90 days prior to application, when needed.

- To ensure high quality care, eligible children must receive services from a specialist who is approved to provide care under SHS. A regularly updated list of North Dakota specialists who have met the standards established by SHS is available.
- Payment for services is coordinated with other available sources of health care coverage.
- Restrictions or coverage limitations may apply for certain services or eligible conditions.

### Partial List of Covered Services

Care coordination  
 Dental services  
 Formula (special)  
 Genetic testing, evaluation and counseling  
 Hearing aids  
 Home health care in lieu of hospitalization  
 Inpatient hospitalization  
 Illnesses occurring during hospitalization  
 Laboratory tests, X-rays and other diagnostic studies  
 Medical equipment (limited to funding availability)

Medications  
 Nutrition services  
 Occupational therapy  
 Outpatient hospital services  
 Physician's, nurse practitioner's and physician assistant's services  
 Physical therapy  
 Prosthetic and orthotic appliances  
 Respiratory therapy  
 Speech therapy  
 Supplies  
 Vision services

### Partial List of Uncovered Services

- Ambulance charges
- Purchase of wheelchairs and hospital beds
- Hospice care
- Immunizations (routine childhood)
- Respite care
- Special shoes or shoe corrections, except when they are needed in relation to the fitting of a brace or other orthopedic appliance
- Well-child care
- Chiropractic care
- Transportation, meals and lodging (can be used to spend down monthly cost share when applicable)
- Care prior to the birth of an infant (e.g., fetal surgery)
- Routine infant formula (Similac, Enfamil, etc.)

To view the full list of covered conditions, please contact the Special Health Service office.

## Diagnostic Testing and Evaluation Services

### Eligibility

- Child must be a North Dakota resident.
- Child must be birth to age 21.
- Child must have a special health care need. For diagnostic services, a child is medically eligible if he or she has or MAY POTENTIALLY HAVE a condition that is included on a list of more than 100 eligible conditions treated under the Special Health Services Financial Coverage Program.
- Financial eligibility is NOT required for diagnostic services.

### Partial List of SHS Eligible Conditions

Acquired brain injury	Diabetes	Muscular dystrophy
Asthma	Genito-urinary tract	Phenylketonuria
Bony deformities	anomalies	Rheumatoid arthritis
Burns	Growth hormone deficiency	Scoliosis
Cancer	Hearing loss	Seizure disorders
Cerebral palsy	Hearing conditions	Spina bifida
Cleft lip and/or palate	Hemophilia	Strabismus
Cystic fibrosis	Joint deformity	
Dental disorders	Malocclusion	

### Important Facts/Tips

- Anyone may refer a child for diagnostic services.
- To apply contact the state Special Health Services office.
- Diagnostic examinations provided by specialists promote early diagnosis of Special Health Services-eligible medical conditions.
- Diagnostic services can be used to secure a diagnosis when the diagnosis of a potentially eligible condition is unknown. Examinations can be covered until a decision about medical eligibility is reached.
- Effective date for services may be 90 days prior to application, when needed.
- To ensure high quality care, eligible children must receive services from a specialist who is approved to provide care under Special Health Services. A regularly updated list of North Dakota specialists who have met the standards established by Special Health Services is available.
- Payment for services is coordinated with other available sources of health care coverage.

## 2020 Clinic Overview

This publication contains many of the multi-disciplinary clinics for children that are offered across the state. The **bolded** clinics are sponsored by Special Health Services and are offered at no cost to families. The other listed clinics are sponsored by private health care facilities.

**Please check both the *Clinic Overview* and subsequent pages for details, as some clinics do not have specific dates established. *Dates that are to be determined (TBD)* will be updated as dates are received.**

Bismarck	Monthly	Sanford Health Rehabilitation Center 300 North 7 <sup>th</sup> Street Bismarck, ND 58501	701-323-6021

Call to schedule appointment times and verify clinic dates.

## Shriners Outreach Clinics

Shriners Healthcare for Children® - Twin Cities Outreach Clinics

A medical team including pediatric orthopaedic surgeons, nurses, and orthotics and prosthetics staff from Shriners Healthcare for Children – Twin Cities in Minneapolis travels to The Bone & Joint Center in Bismarck to diagnose and treat children (under age 18) with pediatric orthopaedic and musculoskeletal medical health concerns. Typically, there is an outreach clinic held every other month. Please call to verify the upcoming outreach clinic date and time, and schedule an appointment.

In some cases, following the outreach clinic, the Shriners medical team will recommend that the child receives additional services available at the Shriners Healthcare for Children clinic – Twin Cities in Minneapolis. Assistance with transportation and lodging expenses is available through Kem and El Zagal, North Dakota's Shrine Centers. Shriners staff will help families to connect with those resources

While a physician referral is not required to schedule an appointment at Shriners Healthcare for Children, it may be necessary to obtain care, depending on the service. Shriners Healthcare for Children – Twin Cities will see patients regardless of their insured status or type of insurance. They work with the families, their home doctor/primary care physician and insurance network to get the most coverage available. If there are cost concerns above and beyond that, families can work with the Shriners Healthcare for Children – Twin Cities financial advisor to request of additional assistance.

For over 97 years, Shriners Healthcare for Children – Twin Cities has been specializing in the treatment of children with pediatric orthopaedic conditions. The clinic in Minnesota is part of a network of 22 Shriners Healthcare for Children locations throughout the United States, Canada, and Mexico.

Conditions treated include:

- Achondroplasia (dwarfism)
- Amniotic band syndrome
- Arthrogriposis
- Blount's disease (tibia vara)
- Bone lesions (non cancerous)
- Brachial plexus injury (Erb's palsy)
- Bunions
- Burn scar releases (no acute burn care)
- Cerebral palsy
- Charcot-Marie-Tooth disease
- Clubfoot (talipes equinovarus)
- Developmental dysplasia of the hip (DDH)
- Ehlers-Danlos syndrome
- Genu valgum (knock knees)
- Genu varum (bowed legs)
- In-toeing
- Juvenile idiopathic arthritis (includes juvenile rheumatoid arthritis)
- Kyphosis/Scheuermann's disease

- Limb deficiency – congenital or acquired (traumatic amputation)
- Limb length discrepancy
- Lordosis
- Macrodactyly
- Muscular dystrophy
- Osgood-Schlatter disease
- Osteogenesis imperfecta
- Patellar (knee) instability
- Pes Cavus (high arched feet)
- Pes planus (flat feet)
- Polydactyly
- Rickets
- Scleroderma
- Scoliosis
- Spasticity
- Spina Bifida (myelodysplasia)
- Spinal muscular atrophy
- Spondylolysis and Spondyloschisis
- Sports injuries
- Syndactyly
- Tarsal coalition
- Toe walking
- Vertical talus
